TRUST THE CODE

THE CODE

THE CODE IS A DECENTRALIZED PLATFORM
GOVERNED BY SMART CONTRACTS OPERATING ON
THE BINANCE SMART CHAIN (BSC).

THIS IS MORE THAN JUST A SYSTEM; IT IS A
FINANCIAL REVOLUTION BASED ON THE SECURITY
AND TRANSPARENCY OF SMART CONTRACTS.

NOW, LET ME INTRODUCE YOU TO HOW **THE CODE**
CAN CHANGE YOUR FUTURE.

TRUST THE CODE

THE CODE

THE CODE IS SECURED BY SMART CONTRACTS THAT ENSURE ALL TRANSACTIONS ARE AUTOMATIC, IMMUTABLE, AND TRANSPARENT, WITHOUT ANY HUMAN INTERFERENCE. WE HAVE CREATED A SYSTEM THAT COMBINES SECURITY, EFFICIENCY, AND OPPORTUNITY. HERE, YOUR PARTICIPATION IS REWARDED IN A FAIR AND SUSTAINABLE WAY.

DECENTRALIZED

In blockchain technology and cryptocurrencies, decentralization distributes control and decision-making across a network of computers, eliminating individual control by people. This promotes greater transparency, security, and resistance to censorship, enabling direct transactions between users without intermediaries or tracking.

SMART CONTRACTS

A smart contract is a computer program that automatically executes the terms of an agreement when predefined conditions are met. Stored on a blockchain, it eliminates the need for human intermediaries, ensuring security and transparency in transactions.

BINANCE SMART CHAIN

The Binance Smart Chain blockchain is a distributed digital ledger that securely and transparently stores transactions. It is maintained by a global network of computers, ensuring that recorded information is immutable and protected by advanced encryption. Binance leverages this technology to ensure trust and security in digital transactions and contracts.

OUR FUTURE PROJECT

TRUST THE CODE

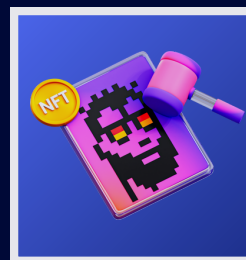

HOW DOES IT WORK?

It's simple: you acquire an NFT, which represents an amount of 15 USDT's.

Choose the ammount of NFT'S you want acordantly wit the investment you want to do. Ex: 1,500 usd = 100 NFT's

WHAT ARE NFTS?

An NFT (**Non-Fungible Token**) on the BNB Smart Chain is a unique digital asset registered on the Binance blockchain. Unlike common cryptocurrencies, which are interchangeable, each NFT has unique characteristics that make it distinct. These tokens can represent items such as digital artworks, collectibles, or other digital assets.

In our case, each NFT represents a block of 15 USDT's and the **payout priority number is what makes it unique**

HOW DOES THE CODE GENERATE REVENUE?

On the Binance Smart Chain (BSC), you can earn financial rewards by participating in the transaction validation process. BSC uses a consensus mechanism called Proof of Staked Authority (PoSA), which combines elements of Proof of Stake (PoS) and Proof of Authority (PoA). In this system, validators are responsible for verifying transactions and adding new blocks to the blockchain. In return, they receive rewards in the form of BNB, Binance's native token.

HOW MUCH CAN I RECEIVE?

The system offers a return of 20% on the invested capital, using small transaction fees to ensure the sustainability of the earnings. You get your capital back with an increase of up to 20%. Additionally, you can acquire as many NFTs as you want and earn up to 20% returns on each of them, without limits. Don't miss this opportunity and activate automatic repurchase (**STAKE MODE**) to maximize your gains!

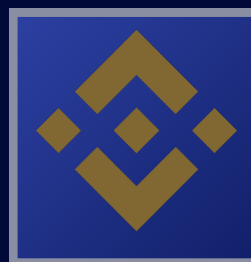

HOW DOES **THE CODE** GENERATE INCOME WITH SECURITY AND TRANSPARENCY?

What is THE CODE?

THE CODE uses smart contracts on the Binance Smart Chain (BSC), ensuring secure, transparent, and fraud-proof transactions. For security reasons, smart contracts guarantee safety and reliability without external interventions.

How does it work?

When you invest, you "lock" **BNB** (Binance's token) and help validate transactions on the network. The system receives transaction fees for validation and pays a reward of up to 20% on the invested capital.

Why is THE CODE reliable?

Total autonomy: THE CODE operates autonomously, without human interventions. **Smart Contracts** ensure security, transparency, and protect against manipulation. Trust the code: 100% reliable and secure, without deception.

Benefits:

- **Investment protected** by Binance Smart Chain technology. **Full transparency** in real-time. **Guaranteed return of up to 20%**, based on network fees.

SHOW TO FRIENDS

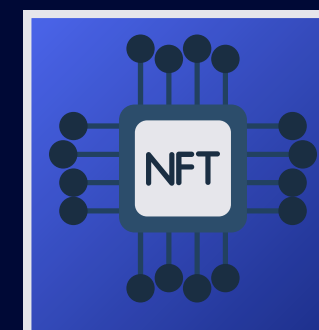

You can also accelerate your earnings by increasing the volume of NFT sales. Each time you help **THE CODE** to generate three times the value of your NFTs, the system automatically prioritize your NFT and immediately returns your initial capital with an increase of 20%. Also, each NFT bought by your direct indications will generate you an additional 8% over the investment made.

And the best part: the reinvestment from your referrals continue to generate recurring profits for you! On your 8% direct comission and your extra renewals (STAKE MODE)

THE CODE

TOTAL TRANSPARENCY

The code is public and auditable, ensuring that anyone can verify its integrity.

IMMUTABILITY OF THE RULES

Once registered on the blockchain through smart contracts, the code becomes immutable, ensuring fixed rules and total transparency.

ABSENCE OF HUMAN INTERFERENCE

Unlike traditional systems that rely on managers or intermediaries, the code operates autonomously, without the risks of subjective decisions or human errors.

DECENTRALIZED SECURITY

The Binance blockchain, used in our model, ensures that everything works as planned, with no possibility of fraud or subsequent modifications.
